## SONAR Questions

- SONAR refers to the device used to detect what is underwater
- On the surface, we observe various **behaviours** e.g. stress, lack of motivation etc, but we do not know the causes
- With the 29 **SONAR questions**, we can explore the underlying risks and evaluate if they influence positively / negatively the behaviours and hence the well-being of our staff members

# Covid

In the context of the Covid-19 pandemic, your company implemented sanitary measures in your workplace. Do you feel that these measures are adequate to keep you safe?

Still in the context of the Covid-19 pandemic, working measures (support from the manager, clarity of tasks, IT tools, etc.) have been taken. Do you consider these measures satisfactory to be able to continue working smoothly?

95%

# Conclusions – Action plans & Timeline

# What should we learn from the results of this survey?

- Despite **a large number of priorities being highlighted**, satisfaction and recommendation scores well as does the perception of management (cfr - leadership module)
- People remain engaged (loyal) and satisfied of their work and company (satisfaction & NPS score) – **motivation is lower**.
- Less good scores are globally linked with:
  - ♦ **Stress** is a big attention point (especially managers and women = **less resources to handle stress**) with a vulnerable score in coping stress
    - **This high level of stress is the results of many highlighted psychosocial risks ;**
  - ♦ **Evaluation/Career opportunities/Training** perception is the same through all group population
  - ♦ **Interpersonal relations** in the Manager population is problematic (on the other hand a resource for non managers)
  - ♦ **Global atmosphere** should be improved (working on support – communication – right to speak – management culture) → job relation are very important for your people and scored border line as a resource.
  - ♦ **Internal communication** is highlighted on all levels with lower scores concerning → involving & information
  - ♦ **Unwanted behaviours is a serious issue who certainly impact the stress cursor – motivation & job security**
  - ♦ **Six Construct** has strong points to increase the well-being of their employees & workers ( clear structure – independence at work – organization )
